Battle Round

1 battle round = 6 seconds

1) Decision Phase.

2) Missile Phase.

3) Movement Phase.

4) Melee Phase.

Surprised : Unable to attack, no defense bonus from shield or special ability. Lasts one battle round.

Movement : Standard 60', Encumbered 40', Heavily Encumbered 20'. Double movement rate if using full movement (no other action possible). Cut in half if moving on *difficult ground*.

Melee Combat

Resolving Attacks

Roll = 1D20 + Melee mod + other modifiers.

Target number = Target's Defense Class (EDC)

Weapon of Choice : Roll two D20s for attack and keep the better result.

Shield & Armor

Shield, helmet or breastplate = +2 EDC each.

Facing

Only one attack per character per battle round. Shield does not protect against rear attacks.

Retreat

Disengage : A character may only disengage from combat at the end of a battle round, if all his opponents have failed their attack roll against him.

Retreat : First *disengage*, then forfeit all attacks and other actions, moving at x2 movement allowance.

Weapon Damage

Weapons have a basic damage roll of 1D6.

Daggers only do 1D6 damage when used for sneak attacks; in normal melee combat, damage is 1D3.

Missile Combat

Resolving Attacks

As for Melee attacks; use Missile modifier instead. Shields only apply if actively used as cover.

Special Melee Tactics

Charge Into Battle : Might 13+, run for 30' or more. Add Might mod to Initiative and Melee for first round.

Hold Back / Weapon Parry : Skill 13+. Forfeits attacks but adds Skill mod to melee Defense Class. Spearmen automatically get this without forfeiting attacks when fighting with spear and shield.

Shield Wall : Two Spearmen or more. +2 to EDC vs all attacks. Can be combined with collective *Charge*.

Subterfuge : Wits 13+. Forfeit attacks for one round of observation; next round, add Wits mod to Melee.

Two Weapons : Skill 13+. +1 to Melee if second weapon is dagger. If Might also 13+, can use two swords or similar weapons for a Melee bonus of +2.

Bashing : Successful attack = no damage but opponent knocked down (must spend one full round getting up, -4 to melee EDC while prone). +2 attack bonus with shield ; can be combined with *Charge*. Cannot be used vs Large or Gigantic creatures

Disarming : Sword only, Skill 13+. Attack roll is not made vs opponent's EDC but vs (20 + opponent's Melee). If successful : no damage but opponent disarmed. Picking up a dropped weapon : same effects as prone (-4 to melee EDC, no attacks). Cannot be used vs Large or Gigantic opponents.

Double Attack : Melee mod of +4 or more. Attacker makes two separate rolls vs different targets at half Melee mod (round down). Can be combined with *Charge* (both rolls) or *Shield Bashing* (one roll only).

Unarmed Combat

Resolved at the end of Melee, after all other attacks.

Pugilism : Cannot be used vs Beasts or Monsters. Subdual damage = 1D3 + Might modifier.

Subdual Damage : Increasing total. If this exceeds current Hits Total = KO; all subsequent attacks inflict real damage. Physical Vigor roll (10) after each minute to wake up, reducing subdual damage total by 1D6. Each hour of rest removes (level) subdual Hits (doubled for warriors).

Wrestling : Successful attack = no damage but opponent grappled; cannot act and can only try to break free once per round : roll 1D20 + Melee vs a target number equal to grappler's Might.

Damage & Injury

Taking Wounds

Damage is taken off the target's Hits Total.

2 Hits or less = Risk of permanent injury. After the adventure, make Physical Vigor saving roll (target number 10). Success = Normal recovery. Failure = Roll 1D6 on the Physical Decrepitude table.

0 Hit or less (creatures & minor NPCs) = death

0 Hit or less (characters) = Make Physical Vigor saving roll (target number 10). Failure = dead. Success (10+) = incapacitated; will die if receiving 1 Hit of damage or more from a *coup de grace*. 20+ = will still die if 1 Hit is taken but can continue to fight until the end of combat. Incapacitated afterwards.

Healing & Recovery

1 week of complete rest = Physical Vigor roll (target number 10). Success = Recovers 1D6 + level Hits.

Special Situations

Close Quarters : Halve Initiative if using spears or barbarian weapons; forbids all special melee tactics.

Mounted Combat : +4 Melee bonus vs opponents on foot (if Medium-sized, Gigantic or Large 0, Small -2, Tiny -4). When Charging, extra +2 to Initiative and Melee and extra *trample* vs Medium-sized (or smaller) foe : Danger Evasion roll (15) or 1D6 extra damage. If the mount is hit for 4+ Hits, rider must roll Danger Evasion (15) or fall for 1D6 damage.

Sneak Attacks : Requires stealth. Sword, barbarian weapon or dagger. +4 Melee bonus and opponent surprised. Damage 1D6 for all weapons, *doubled* if attack roll beats Defense Class by 10+.

Critical Hit : Player's roll beats EDC by 10+.
